

WHY APEX?

True Integration

We solve your problems with technology that works. We specialize in integrating systems that improve performance and reduces your cost. We are not restricted by products.

Superior Craftsmanship

Our professionals focus on efficiency, quality and craftsmanship.

Software & Training

Apex is a trusted expert in Security Service Software, specializing in software training and technology. We can provide consulting and offer training sessions, along with customized technology audits when requested.

National Presence

Unlike traditional "National Companies" with offices located in every Metropolitan City in the country - Apex Technology Solutions has approached the marketplace demands with a different mentality. Apex took more of a Regional footprint approach. This philosophy allows for the much needed support and at the same time lowers our general operating costs providing savings back to our customers. Often we are able to enter a marketplace at the request of our customers and compete with a local Integrator for less than the local competitor.

Apex Technology Solutions LLC

10222 W. Central Suite 201

Wichita, KS 67212

Apex Technology Solutions, LLC provides decades of experience, up to date technology and an old school approach to doing business; we listen to and focus on our clients to give them the time and attention they deserve.

Our goal is to be the first to satisfy the growing demand for a service oriented, as opposed to product oriented, electronic security integration partner.

We use the word "Service" not as a "catch phrase", but rather as a Cornerstone.

866.681.2928

Call us for Solutions!

Apex Technology Solutions LLC, in accordance with Under-writers Laboratories, can certify (CRZH) existing systems as well as provide installations under the UL 2050 & 681 requirements.

When requested by our client Apex Technology Solutions LLC can issue a certified alarm system. This process declares that Standards complying with the Underwriters Laboratories requirements have been met by Apex.

Apex Technology Solutions LLC is subject to random audits by UL alarm system auditors to countercheck compliance.
